6. Company's activities

G.B.S Agricultural Services Public Company Limited (GBSASP) was established as a public company in 2016 with the aim of helping farmers to solve the problems of labor shortage, difficulties in agricultural production and challenges in agriculture and related services. GBSASP coordinates with farmers to solve agricultural problems in order to expand the contract farming business systematically, and provides not only agriculture but also farm-related services. The activities carried out by GBSASP are as follows:

(a) Import and distribution of agricultural machinery and inputs

In order to meet the needs of farmers in the purchase and distribution of agricultural machinery, the company has successfully secured an authorized dealership for agricultural machinery from KUBOTA Myanmar Co., Ltd. Showroom are currently being established in Monywa, Sittwe, and Naungcho

township to support this expansion. In the 2024-2025 fiscal year, the sale of agricultural machinery accounted for 80.89% to the total revenue.

For the Machinery Business, inventory operations are managed through leased warehouse facilities from Good Brothers, enabling cost efficiency and centralized control. The inventory movement follows the First In, First out (FIFO) method to ensure timely rotation and reduce the risk of product obsolescence. Distribution is carried out through a decentralized branch network across Myanmar, allowing proximity to end-users and faster inventory turnover.

GBSASP is planning to expand the import and distribution of International Standard food and agricultural machinery and inputs required for agricultural production in order to develop the country's agricultural sector and provide agricultural services to farmers.

Distribution of agricultural machinery

(b) Distribution of high quality crops domestically and internationally

The company's agricultural products trading business encompasses the procurement rice, various beans (including peas, chickpeas, and green beans), and corn sourced from major agricultural regions, Nay Pyi Taw, Yangon Region, Bago Region, Ayeyarwady Region, Magway Region, and Shan State and processed by using modern machinery and such high-quality, cleaned products are subsequently distributed both domestically and internationally.

GBS ASP utilizes outsourced warehouses, each equipped with processing and cleaning facilities. Commodities are typically stored in 50 kg bags under regulated environmental conditions to ensure quality and safety. The company has implemented SAP ERP for inventory tracking and stock movement visibility, supporting informed decision-making and risk management.

In the fiscal year 2024-2025, the income from the purchase and sale of agricultural products accounted for 18.95% to the total income.

Negotiations with local entrepreneurs on crop procurement

(c) Contract Farming

G.B.S Agricultural Services Public Company Limited primarily focuses on the agricultural sector, which constitutes Myanmar's principal economic activity. The company's core operation within this sector is Contract Farming business, concentrating on key crops such as rice, millet, green beans, various other types of beans, and corn. G.B.S ASP is also actively developing contract-farming networks with farmers across the country, supported by Good Agricultural Practices (GAP) training and advisory programs to improve yield, consistency, and traceability.

Contract Farming is a system of contracts between farmers and the company to produce crops under pre-agreed terms and conditions. In this system, the company provides seeds; technology and financial support to the farmers, and the farmers resell the crops that meet the specified quality at a fixed price. This system provides market security for the farmers and ensures the availability of quality raw materials for the companies.

In the 2024-2025 fiscal year, (178) Client Contracts have been engaged in Contract Farming business, and revenue accumulated for 0.16% of the total revenue.

Therefore, GBSASP, in line with the goals and expectations set by the company, is implementing farmer-friendly activities with modern technologies and working in partnership with farmers in Nay Pyi Taw, Yangon Region, Bago Region, Ayeyarwady Region, Magway Region and Shan State. G.B.S ASP plans to establish corn drying and storage infrastructure in Southern and Northern Shan States.

The Contract Farming business will be primarily conducted in Ayeyarwady Region during the 2024-2025 fiscal year. The areas where the activities will be carried out are shown in the table below:

8. Risk Factors

Our's company mainly engages in the purchase, distribution and sale of Kubota brand agricultural equipment and the export of agricultural products both domestically and internationally. Therefore exposed to risks related to the country's economic and environmental risks.

Regulatory risks may arise due to policy changes and restrictions imposed by the government. Financial risks may arise due to market instability and exchange rate fluctuations. International trade restrictions may also affect the supply and demand of goods, which may have a direct impact on GBSASP's income and market value, and may result in losses related to foreign income.

There are also risks of losses such as reduced crop yields due to climate-related risks and natural disasters (e.g. floods, earthquakes, climate change, etc.), and reduced crop production due to incorrect farming practices. This may also lead to increased costs and delays in the logistics and supply chain for transporting and storing crops and crop products.

GBSASP faces credit and settlement risks due to its role in agricultural subsidy disbursement and contract farming. Additionally, increased agricultural costs during cropping seasons may result in liquidity risks if working capital is insufficient.

In the agricultural service industry, risks include quality defects in equipment sales and maintenance, potential repairs or replacements within warranty periods, and customer complaints or compensation claims due to service delays depending on local conditions. Additionally, Regional Risk & Control factors are present in areas where GBSASP Kubota Showrooms operate.

To manage potential losses, a Risk Management Policy will be established and monitored, with solutions implemented to minimize impact. Risk mitigation strategies will include fostering strong relationships with relevant departments, authorities, and NGOs. Additionally, these strategies involve expanding agricultural product markets domestically and internationally, making purchase decisions based on price criteria to reduce market loss risks, and securing crops through contracts with farmers. The policy also incorporates using climate-resilient technologies and providing insurance protection. Risk transfer will be systematically executed.
